

Our versatile 8-in-1 USB-C hub features a USB-C plug for easy connection. It includes three USB-A 3.0 ports for fast data transfer, an HDMI port for 4K video at 60Hz, and a Gigabit RJ45 port for speedy networking. Plus, there's a USB-C PD port for up to 100W power delivery, an SD card slot, and a TF card slot, both operating at 480Mbit/s. It supports reading two cards simultaneously. Compatible with Windows, macOS, Linux, and iPadOS, it's your go-to solution for expanding connectivity.
