

MODULAR PLUGS - DPL-5E1TRA0F1-100

D-lite Category 5e/6 Modular Plugs are suitable for both 23-26 AWG stranded and solid cables. This modular design means they can be used for a wide range of networking needs that span across a whole business system, eliminating the need to constantly switch between plugs when cabling. Compatible with standard RJ45 Wire network crimping tools.

D-lite CAT5e/6 modular plugs fit seamlessly into any well-established standard operating procedure, making cable assembly easy.
