The D-Link range of flush mount and surface mount type wall mount cabinets designed for home/office environment. The cabinet's structure is welded and painted with electro static powder coated finish. D-Link is available in 12U size and different depth variants. The recessed/flush mount cabinet is designed with a removable front door along with a removable outer frame. The front door can be removed to change the door opening orientation from left to right or right to left. The removable outer frame facilitates easy installation of the cabinet when it must be flush mounted into the wall.
